

## **Kent County Council Waste Management Tunbridge Wells (North Farm) HWRC and Transfer Station CLOSURE**

The Kent County Council (KCC) Tunbridge Wells (North Farm) Household Waste Recycling Centre (HWRC) and Transfer Station will be closing from the 16<sup>th</sup> July and re-opening on the 25<sup>th</sup> September. The closure will allow essential works to be carried out to repair the fire damaged infrastructure and also make further improvements to the site drainage and concrete floor to prolong the life of the facility.

There will inevitably be delays at the Dunbrik HWRC as this is the nearest alternative HWRC site and Transfer Station, members of the public are encouraged to minimise the use of the site during this period where possible as queues will be extensive. Alternative sites can be found using the KCC website [www.kent.gov.uk/recycling](http://www.kent.gov.uk/recycling)

KCC understands that there will be implications locally due to the closure of the site and ask that members of the public are understanding as once complete, the works will improve the site significantly.
